Business Information

THESE PRICES are in effect for Fall 1940 season.

PRICES named in this Trade List apply only to orders placed by nurserymen, florists and dealers.

PACKING. All goods are packed in boxes or bales for which we charge sufficient to cover cost of material used.

CLAIMS, if any, must be made immediately upon receipt of goods, and if just, made satisfactory, but in no case are we responsible for more than the purchase price of the stock in question. We will not be responsible for failure to fill orders in full or for any damage or delay to stock or delivery to the transportation company.

TERMS: We offer the usual terms; net 30 days from date of shipment to those of known responsibility but must have satisfactory business references from others or remittance must accompany order. Those desiring stock shipped by express C. O. D. will please remit $\frac{1}{4}$ the amount of their purchase when ordering. Other terms by special arrangement.

NON-WARRANTY. We give no warranty expressed or implied, the purchaser assuming all risk and responsibility of transportation, growth, planting, life of stock or any other matter on any stock we sell. We send out good stock carefully grown and packed but cannot control conditions after it leaves our care. We exercise the greatest care to keep our stock true to name and are willing to replace on proper proof any stock that may prove otherwise, or refund the amount paid us for such stock, but it is mutually agreed that we shall not at any time be liable for any greater amount.

TELL US HOW TO SHIP. Whether by freight or express and give railroad delivery if by freight. This may help in getting the stock to you with the least delay possible.

TIME OF SHIPMENT. We ship every week in the year with the possible exception of during the winter when bad weather makes it impossible, although this is very seldom. Of course, there is a regular season for shipping the different plants but if you want them out-of-season and are willing to take the risk of good delivery we will pack with the utmost care and get them off to you at most any time you want them.

PLAN TO VISIT OUR NURSERY

We will certainly be glad to have you come and see our stock for yourself. We have many items in too small lots to list. Among them there may be some that you are especially desirous of securing. If you are not familiar with the varieties we are offering we will send you a descriptive list of most of the stock offered herein, if you will ask for it.

We are located on the Eastern Shore of Maryland, about 100 miles directly south of Wilmington, Delaware. See the road map on fourth cover page.

MADE TO ORDER ZINC LABELS

We will make from your list of varieties, Embossed Zinc Labels, one-half inch wide at five cents each in any quantity desired. These labels will permanently identify your plants as they will last indefinitely.

TOUGH WATERPROOF PAPER LABELS

We can furnish a tough paper label slotted in one end at \$1.00 per thousand; \$7.50 per 10,000. Prices on printing on receipt of your list of requirements.

Good Stock at Lower Prices

We hope we will not appear boastful when we say, "We believe we have as good lining-out stock as can be found anywhere." Our sales help convince us that this is true. They showed a material increase over the previous season, which was the best we ever had.

This season we are offering a larger stock than we have ever grown before and in some cases we have lowered the price in spite of the increased cost of most everything that enters into the production of this stock.

For this increase in your orders we want to "Thank You" and it is truly from the depths of our heart.

To you who can, we invite you to come and see our stock, but if you cannot come and will leave it to us we believe you will be pleased with the stock we send you. If you are not we want you to let us know about it. We will do everything we possibly can to send you such stock as we would want to use in our own planting.

We do not have as large or complete a stock of specimen sizes as we usually have. Some in fairly good supply and some entirely exhausted as you will see by our offerings.

Again we ask you to come and see it or if you cannot come send your order and leave it to us to please you.

Ornamental Stock

Quantities: 1 to 5 at the each rate, 5 or more at the 10 rate, 25 or more at the 100 rate, 250 or more at the 1000 rate.

All Lining-Out sizes are marked by an *. Sizes not so marked are classed as Specimen Stock.

CYPRESS LATH SHADE

We have had so many inquiries as to where Lath Shades for covering small lining-out stock, seedlings, etc., could be secured and the price of same that we have decided to offer it to the trade. This is made with Cypress laths 4 feet long, 1½ inches wide and spaced about the width of a lath apart, woven together with three double strands of galvanized wire, thus giving half shade. Made in forty feet lengths at 8 cents per running foot.

SHIPPING TAGS

Made from good quality, tough, waterproof stock. Size 3½x6¼ inches. The standard size tag most used by nurseries. There is room for your Inspection Certificate on the address side. Printed to your order at the following prices:

500	1,000	2,000	5,000	10,000
\$3.50	\$5.50	\$10.50	\$24.50	\$45.00

We can also furnish any other size or quality tag at very reasonable price. Ask for quotations.

Azaleas

Azaleas have been one of our specialties for many years. This season we are pleased to offer the largest stock we have ever grown, and at reduced prices, too. If you have not been getting your Azaleas—Lining-Out or Specimen—from us we wish you would try ours this season. We aim to please you with Azaleas as well as with our other stock.

Varieties with an asterisk * are the hose-in-hose or double type.

Each X means one transplanting.

Our 1-yr. field beds XX trans. have been grown in the greenhouse one year and in outside beds one year thus making them really two years old. The 2-yr. in field beds XX trans. are two years from greenhouse and thus three years old.

KURUME AZALEAS

The Kurume Azaleas have been known to America only about 20 years, but in that time they have made wonderful progress as hardly a garden but what has one or more varieties of this wonderful type of Azalea. They are also well adapted to forcing—thousands of them being sold for Mother's Day, Easter and Decoration Day. They are comparatively easy to grow and they make such a wonderful display that the demand is continually increasing. Many of the varieties are hardy out of doors as far north as Long Island. They are extremely floriferous, and in season the blossoms completely cover the flowers. The colors are of almost every hue and shade as you will find below.

Each 10 100 1000

AMOENA.* Flowers rosy purple, in dense masses. Hardy and early flowering. The foliage assumes a pleasing bronze tint in the fall and winter months.

* 2 in. pot plants	\$1.00	\$6.00	\$50.00
* 1 yr. in field beds XX trans. .	1.25	10.00	90.00
10 to 12 in. B&B	\$0.60	5.00	45.00
12 to 15 in. B&B75	6.00	55.00
15 to 18 in. B&B85	7.50	65.00
18 to 21 in. B&B	1.15	10.00	90.00

AMOENA COCCINEA.* A new hardy Azalea, equally as hardy as Amoena while in coloring it is a brilliant fiery red. One authority thinks it will displace Hinodegiri as it becomes better known, both as an outdoor plant as well as for forcing.

* 2 in. pot plants	\$1.00	\$7.00	\$60.00
* 1 yr. in field beds XX trans. .	1.25	10.00	90.00
6 to 8 in B&B	\$0.45	3.50	30.00
8 to 10 in. B&B60	5.00	40.00
10 to 12 in. B&B75	6.00	50.00
12 to 15 in. B&B85	7.00	65.00
15 to 18 in. B&B	1.00	9.00	85.00

AMOENA SUPERBA. Darker purple than Amoena, with a slightly larger flower. As hardy as Amoena but of more upright growth.

* 2 yr. in field beds XX trans. .	\$2.75	\$20.00
-----------------------------------	--------	---------

APPLE BLOSSOM. White shaded pink, with light center. Leaves are glossy green.

* 1 yr. in field beds XX trans. .	\$1.50	\$13.50
-----------------------------------	--------	---------

BENEGIRI. Flowers bright deep red. Compact grower with narrow leaves.

* 1 yr. in field beds XX trans. .	\$1.50	\$12.50
* 2 yr. in field beds XX trans. .	2.00	17.50

BOUQUET ROSE.* Flowers of medium size, of a rose-pink shade, darker towards center. Bronze green foliage.

* 1 yr. in field beds XX trans. .	\$1.50	\$12.50
* 2 yr. in field beds XX trans. .	2.00	17.50

BRIDESMAID. Glowing salmon-pink flowers produced in large clusters. Small glossy green foliage.

* 2 in. pot plants	\$1.00	\$7.50	\$65.00
* 1 yr. in field beds XX trans. .	1.50	12.50	112.50
6 to 8 in. B&B	\$0.60	5.00	40.00
8 to 10 in. B&B75	6.00	50.00
10 to 12 in. B&B85	7.50	
12 to 15 in. B&B	1.00	9.00	

	Each	10	100	1000
CATTLEYA.* A delicately lilac-tinted white, shading at edges to mauve-pink.				
* 1 yr. in field beds XX trans.	\$1.75	\$15.00	\$135.00	
* 2 yr. in field beds XX trans.	2.00	17.50		
CHARLES ENCKE. Light pink, large flowers. A good forcer. Strong, healthy grower.				
* 1 yr. in field beds XX trans.	\$1.75	\$15.00	\$135.00	
* 2 yr. in field beds XX trans.	2.00	17.50		
6 to 8 in. B&B	\$0.75	6.00		
CHEERFULNESS.* Dark vermilion red, lighter center.				
* 1 yr. in field beds XX trans.	\$1.75	\$15.00		
* 2 yr. in field beds XX trans.	2.00	17.50		
CHERRY BLOSSOM.* Dainty light pink blossoms, shading lighter at center. Large, dark green foliage.				
* 1 yr. in field beds XX trans.	\$1.75	\$15.00	\$135.00	
* 2 yr. in field beds XX trans.	2.00	17.50		
CORAL BELLS.* Beautiful shell-pink shading somewhat deeper at center. Free flowering and dainty. Small foliage. An early bloomer.				
* 2 in. pot plants	\$1.00	\$7.50	\$70.00	
* 1 yr. in field beds XX trans.	1.50	12.50	112.50	
* 2 yr. in field beds XX trans.	2.00	17.50	150.00	
DAPHNE. Large lavender flowers, with light center.				
* 1 yr. in field beds XX trans.	\$1.75	\$15.00		
DAYBREAK. Pure light pink flowers in dense clusters. Free flowering. Beautiful foliage.				
* 1 yr. in field beds XX trans.	\$1.00	\$7.50	\$70.00	
* 2 yr. in field beds XX trans.	1.50	12.50	112.50	
6 to 8 in. B&B	\$0.65	5.00	40.00	
8 to 10 in. B&B75	6.50	55.00	
DELICATISSIMA. White, tinged and edged with lilac.				
* 1 yr. in field beds XX trans.	\$1.75	\$15.00		
* 2 yr. in field beds XX trans.	2.00	17.50		
EXQUISITE. A beautiful salmon color.				
* 1 yr. in field beds XX trans.	\$1.75	\$15.00		
FLAME.* Bright madder-red flowers, suffused with copper. Beautiful One of the best Kurumes.				
* 2 in. pot plants	\$1.00	\$7.00	\$65.00	
* 1 yr. in field beds XX trans.	1.50	12.50	112.50

15 to 18 in. B&B	1.25	11.00	100.00	

NEW U. S. D. A. AZALEAS

A group of new varieties of this wonderful June-blooming hardy evergreen Azalea released by the U. S. Department of Agriculture. Most of these were collected by the Department at the Agricultural College, Imperial University Komaba, in Tokyo, Japan. They have been tried out by the U. S. Department of Agriculture staff and other interested growers and have been selected as being worthy of introduction in this country. We were one of the original growers selected to propagate these for the trade.

In ordering these Azaleas please use the number following the name, this will insure getting the variety wanted.

Rideway's color chart used as a guide to colors.

Our 1-yr. field beds XX trans. have been grown in the greenhouse one year and in outside beds one year thus making them really two years old. The 2-yr. in field beds XX trans. are two years from greenhouse and thus three years old.

	Each	10	100	1000
BENI KIRISHIMA (No. 77113 R. Indicum). A semi-double form; the flowers are old-rose to Eugenia-pink.				
* 1 yr. in field beds XX trans.	\$1.25	\$10.00		
* 2 yr. in field beds XX trans.	\$0.25	1.75	15.00	\$135.00
6 to 8 in. B&B	.50	4.00	30.00	
8 to 10 in. B&B	.65	5.50	45.00

KAEMPFER HYBRID AZALEAS

In these new Kaempferi Hybrids—the result of crossing Kaempferi and Malvatica—there has been obtained the hardiest type of evergreen Azalea, with a good range of form and color in the flowers so far achieved. Several years tests have demonstrated that these new Hybrids are just as hardy as Kaempferi, until now the hardiest of the evergreen sorts.

	Each	10	100	1000
ALICE. A large brilliant orange-red flower.				
* 1 yr. in field beds XX trans.		\$1.75	\$15.00

ARNOLDIANA AZALEAS

In 1914, the late Jackson Dawson, then superintendent of the Arnold Arboretum, at Boston, Mass., created a splendid new type of hardy Azalea by crossing Azalea Kaempferi and Azalea Amoena. Of the seedlings thus produced a considerable number of them were grown at Boston from their infancy until flowering age, when the following ones of unusual beauty and vigor of growth were selected.

	Each	10	100	1000
CARDINALIS. A dark cardinal red. This variety has the characteristic of making new leaf growth with the flower.				
* 1 yr. in field beds XX trans.	\$2.50	\$20.00		
EARLY DAWN. A beautiful soft radiant pink, fading silvery.				
* 1 yr. in field beds XX trans.	\$2.50	\$20.00		
* 2 yr. in field beds XX trans.	3.00	25.00		
MELLO-GLO. A charming cerise-pink, with golden suffusion and distinct base of corolla.				
* 1 yr. in field beds XX trans.	\$2.50	\$20.00	\$185.00	
* 2 yr. in field beds XX trans.	3.00	25.00		
MOSSIEANA. A rich orchid-lavender, and the strongest grower of the group.				
* 1 yr. in field beds XX trans.	\$2.50	\$20.00	\$185.00	
* 2 yr. in field beds XX trans.	3.00	25.00		
MIXED HYBRIDS. A mixture of the above in a wide range of shades.				
* 1 yr. in field beds XX trans.	\$2.00	\$15.00	\$135.00	

MISCELLANEOUS AZALEAS

In the following list of Azaleas you will find many species; they are not classified or separated as to their different species. We are trying to give such descriptions that you may know, or have a general idea what each variety is like.

	Each	10	100	1000
ALTA CLARENCE. A very fine large flower of intense brilliant yellow.				
* 2 to 4 in. S. trans.	\$0.85	\$6.00		
* 4 to 6 in. S. trans.	1.25	10.00	\$90.00	
* 6 to 8 in. S. trans.	2.00	15.00		
CANESCENS (Piedmont Azalea). Deep pink. April-May. Very fragrant.				
* 1 yr., 2 to 4 in. S. trans.	\$1.00	\$6.00		
CHINENSIS. Deciduous Chinese Azalea.				
6 to 8 in. trans.	\$2.00	\$17.50		
8 to 12 in. trans.	3.00	25.00		
12 to 15 in. trans.	5.00	45.00		
DILATATUM. A very beautiful Azalea. Bright deep rose flowers in spring. Blooms early in spring before the leaves appear, covering the entire plant.				
6 to 8 in. trans.	\$2.00	\$17.50		
8 to 12 in. trans.	3.00	25.00		
12 to 15 in. trans.	5.00	45.00		
GANDAVENSIS (Ghent Hybrids). A very satisfactory type of Azalea, including a wide range of colors from white to flaming orange. They grow and thrive with a minimum of care and the shades of yellow, copper and gold are particularly lovely.				
* 3 to 6 in. S. trans.	\$1.00	\$8.50		
JAPONICA. A vigorous shrub, growing up to six feet and hardy in New England. The flowers are orange-red or flaming red. Makes a wonderful display.				
* 4 to 8 in. S. trans.	\$1.25	\$10.00	\$90.00	
J. C. VAN TOL. Clear, vivid red flowers of the Mollis type. Deciduous.				
6 to 8 in. B&B	\$2.00	\$17.50		
8 to 12 in. B&B	3.00	25.00		
12 to 15 in. B&B	5.00	45.00		
KAEMPFERI. Large, beautiful red flowers. Hardy.				
9 to 12 in. B&B	\$0.60	\$5.00	\$45.00	
12 to 15 in. B&B75	6.50	60.00	
15 to 18 in. B&B	1.00	9.00	80.00	
KIRISHIMA (Damask Rose). This is a rare and attractive plant for spring bloom. During May it bears large white flowers with pale scarlet center.				
* 1 yr. in field beds XX trans.	\$1.50	\$12.50	\$110.00	
* 2 yr. in field beds XX trans.	1.75	15.00	135.00	

	Each	10	100	1000
LEDIFOLIA ALBA (<i>Indica Alba</i>). Very large white flowers. Good grower and profuse bloomer.				
* 1 yr. in field beds XX trans.		\$1.75	\$15.00	\$135.00
10 to 12 in. B&B	\$0.60	5.00		
LEDIFOLIA ROSEA (<i>Indica Rosea</i>). Similar to <i>Ledifolia Alba</i> excepting the flowers are rose colored.				
* 1 yr. in field beds XX trans.		\$1.75	\$15.00	\$135.00
* 2 yr. in field beds XX trans.		2.25	20.00	
12 to 15 in. B&B	\$0.75	6.50	60.00	
15 to 18 in. B&B	1.00	9.00	80.00	
18 to 24 in. B&B	1.25	11.00	100.00	
24 to 30 in. B&B	1.50	13.50	125.00	
MOLLIS . Various shades of red flowers appear before the leaves in early spring. Deciduous. Forces well.				
4 to 6 in. XX trans.		\$1.25	\$10.00	
6 to 8 in. B&B	\$0.40	3.00	25.00	
8 to 10 in. B&B	.45	3.50	30.00	
10 to 12 in. B&B	.50	4.00	35.00	
12 to 18 in. B&B	.65	6.00	50.00	
NUDIFLORA (<i>Pinxterbloom</i>). Light pink flowers with narrow tube dark purplish-red at base. Very fragrant. Blooms in late May.				
* 6 to 8 in. heavy		\$3.00	\$25.00	
PONTICA (<i>Lutea</i>). A broad, densely branched, deciduous Azalea. Large, yellow, fragrant flowers are produced in clusters at the end of the branches before the leaves appear.				
3 to 6 in. S. trans.		\$1.00	\$8.00	
6 to 8 in. S. trans.	\$0.40	3.00	25.00	
8 to 12 in. S. trans.	.45	4.00	35.00	
12 to 15 in. S. trans.	.65	6.00	50.00	
POUKHANENSIS . The rose-pink to rose-purple, fragrant flowers are produced abundantly in early spring. Deciduous, low spreading habit. Hardy in New England.				
* 2 in. pot plants		\$1.00	\$7.50	\$65.00
* 1 yr. in field beds XX trans.		1.50	12.50	112.50
* 2 yr. in field beds XX trans.		1.75	15.00	125.00
6 to 8 in. B&B	\$0.50	4.00	37.50	
8 to 10 in. B&B	.60	5.00	45.00	
10 to 12 in. B&B	.70	6.00	55.00	
12 to 15 in. B&B	1.00	8.50	80.00	
15 to 18 in. B&B	1.25	10.00	90.00	
18 to 21 in. B&B	1.50	12.50		
24 to 30 in. B&B	2.00	18.50		
RHOMBICA . A tall growing Japanese Azalea with rose-purple flowers an inch and a half to two inches across. Flowers in early spring before the leaves appear. Hardy.				
12 to 15 in. B&B	\$0.75	\$6.50		
SCHLIPPENBACHI . The flowers are sweet scented, pure bright pink, and about three inches across. In autumn, the leaves turn yellow, orange and crimson before they drop. Perfectly hardy in New England.				
* 3 to 4 in. S. trans.		\$1.00	\$7.50	
VASEYI (<i>Pinkshell Azalea</i>). Delicate white. Pink or deep rose-colored flowers appear in early May before the foliage. Free bloomer.				
* 3 to 6 in. S. trans.		\$1.00	\$7.50	
VISCOSA (<i>Swamp Honeysuckle</i>). Late blooming. Grows in low swampy soils. Flowers are pure white sometimes flushed with pink.				
12 to 15 in. B&B	\$0.65	\$5.50		
YODOGAWA . Purplish-pink, brilliant double flowers in early spring. A semi-evergreen Japanese Azalea.				
* 1 yr. in field beds XX trans.		\$1.75	\$15.00	
12 to 15 in. B&B	\$0.75	6.50		

AZALEAS AND CAMELIAS By H. H. Hume

Interest in Azaleas and Rhododendrons is greatly increasing. Until now, little information on varieties, care and culture of these plants has been available. Mr. Hume accurately and thoroughly describes the varieties best suited for various uses and discusses questions on culture, such as soils, fertilization, planting, propagating, and general care, indoors and out. He has taken special care to describe accurately the several groups and varieties, and his suggestions on the use and culture are very practical. If you are growing Azaleas and Rhododendrons you will find this book much help. While the book is titled Azaleas and Camellias it applies equally to Rhododendrons. \$1.50.

EMBOSSSED ALUMINUM LABELS

We will make, from your list of varieties, Embossed Aluminum Labels, one-half inch wide at five cents each in any quantity desired. These labels will permanently identify your plants.

Let us take care of your Strawberry plant orders this season. We have had 34 years growing and packing experience with strawberries. Our strawberry plant business is handled entirely separate from our other nursery stock.

BUXUS MICROPHYLLA VAR. COMPACTA. New rare, extremely dwarf and hardy Boxwood. Has stood all weather conditions in the Pocono Mts. where temperature drops below zero. The dwarfest box in the world. Ideal for edging, rockeries, Knott garden, and all other uses where plants are required to remain dwarf. Original plant after twenty-eight years, is now about 11-12 inches high and 20-21 inches wide. A rare gem.				
2 in. pot plants		\$5.00	\$45.00	

	Each	10	100	1000
BUXUS SEMPERVIRENS. An old-time favorite in gardens and much used for hedges as well as for specimen plants. This is called the Bush Box but is a faster growing type than Suffruticosa Box. If you want the real dwarf growing kind you should get Suffruticosa. There are many wonderful hedges of Box in the Atlantic States.

A One-year from grafts ...\$0.40 \$3.50 \$25.00
 B Two-year from grafts60 5.00 40.00

Letters after varieties indicate sizes available.

- COLUMBIA. AB** Flowers elongated, rosy red.
- GRANDIFLORA. AB** Flowers large; lemon tinted pink later becoming deep rose.
- KERMESIANA SEMIPLENA. A** Flowers large, often semi-double varying from "Appleblossom" to brilliant clear red.
- MOERLOOSEI. AB** A handsome blend of pink and white flowers. Flowers large.
- NIVALIS. A** Snow white, flowers large.
- ROSEA GRANDIFLORA. AB** Rose pink with an occasional white petal.
- RUBRA GRANDIFLORA. A** Early; very large flowers, deep red. Probably the most popular one.
- VERSICOLOR. AB** Buds soft "appleblossom" opening to white flushed rose.
- WHITE. AB** Pure white; good size flowers.

Daphne Cneorum

A Hardy Plant Novelty

Our Sure-to-Bloom Strain

When in bloom its fragrance sells it. Its small size and low price permits the customer to take it along. An ideal cash and carry item. Our improved strain blooms in May and again in August until frost.

Plants are solid, compact and symmetrical. The profusion of soft pink flowers attracts favorable attention and the strong sweet fragrance clinches the sale.

Requires a cool house, little room and only eight weeks to force into full bloom. Can be shipped safely throughout the winter months by freight without damage.

Ilex--Holly

We consider the Holly one of the very best ornamental trees or shrubs. Nothing is prettier than one of our American Hollies with great clusters of bright red berries and dark green leaves shining above the snow in winter. The nurseryman who will grow a collection of Hollies to a specimen size will have something he can sell whether times are good or whether they are bad. There is always a demand for them, and there will be as long as any other plants will sell. We believe there is money in growing them and will increase our stocks as fast as we can.

Each 10 100 1000

ILEX AQUIFOLIUM (English Holly). This is not as hardy as the American Holly (*Ilex Opaca*) but can safely be planted from New Jersey southward. The foliage is a bright glistening green and the berries are larger than the American. A very beautiful Holly.

* 1 yr. S.		\$5.00	\$45.00	
* 6 to 8 in. trans.		\$1.00	7.50	65.00
* 8 to 12 in. trans.		1.25	10.00

12 to 15 in. 2 yr. trans.		3.50	30.00	

	Each	10	100	1000
ILEX OPACA CROONENBURG. We offered this plant last spring for the first time and it met such demand that our stock is still not large, hence only offering in the 2 to 3 ft. size at \$4.50 each. In a mature plant, the leaves are 2½ to 3¼ inches long and 2 to 2½ inches wide, having about 7 to 9 spines of a very dark green, not having the usual yellowish tint found in the most familiar American Hollies. It bears berries from cuttings almost continuously, as three year old plants this year had branches weighed down with the growth. In a field of several thousand you could not see one plant without berries.				
ILEX OPACA FEMINA. A berry-bearing form of the American Holly. Cuttings selected from berry-bearing trees.				
3 in. pot plants	\$2.50	\$22.50		
12 to 15 in. 2 yr. trans.	3.50	30.00		
ILEX OPACA HUME No. 2. Another cross between Dahoon and Opaca. A stronger grower than East Palatka. Its berries are not so bright, however. A wonderful grower and should be included in your list.				
3 in. pot plants	\$2.50	\$22.50	\$200.00	
12 to 15 in. 2 yr. trans.	3.50	30.00	275.00	
ILEX OPACA LAKE CITY.				
15 to 18 in. 2 yr. trans.	\$3.50	\$30.00		
ILEX OPACA MALE. This is needed to pollenate the female type of American Holly so they will produce berries.				
3 in. pot plants	\$2.50	\$22.50		
ILEX OPACA MRS. SANTA. This variety is noted for its beautiful foliage, pyramidal branches growing well in close places.				
3 in. pot plants	\$2.50	\$22.50	\$200.00	
ILEX OPACA XANTHOCARPA. A yellow berried variety of the American Holly.				
3 in. pot plants	\$2.75	\$25.00		
ILEX PERNYI (Chinese Holly). Shrub to 10 feet; leaves crowded, with 1 to 3 rigid spines on each side, the upper pair the largest but shorter at the terminal spiny point, dark green and lustrous above. ¾ to 1 inch long; fruit bright red. A handsome evergreen and the foliage is most unusual. We like Pernyi very much.				
2¼ in. pot plants	\$2.00	\$17.50		
ILEX PERNYI VEITCHI. A new variety from England. Differs from Pernyi in that it has larger leaves and is probably a stronger grower. We recommend it.				
2¼ in. pot plants	\$3.00	\$25.00		
ILEX SERRATA (Siebold's Holly). A deciduous small shrub, twigs densely covered with holly-like berries. Attractive.				
* 2 yr. S. 12 to 18 in.		\$5.00	\$45.00	
4 to 5 ft.	\$0.75	\$6.50		
ILEX VERTICILLATA (Winterberry). Deciduous shrub to 10 ft. Leaves oval, toothed, berries bright red.

New Wonder

ROOTONE Is Best For Cuttings

Because—

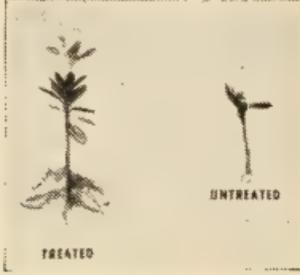

LOW COST—1/30 to 1/50 of a cent per cutting.

SIMPLICITY—No skill is needed to apply ROOTONE. No measurements, no vials, no elaborate charts to follow, or clock-watching are needed. Just dip and plant.

SPEED OF ROOTING—The time for rooting of cuttings is cut by ROOTONE treatment to anywhere from one-half to one-tenth of the time required without treatment.

SURENESS OF ROOTING—Cuttings that root with difficulty such as holly, magnolia, arborvitae, lilac and dogwood will respond in greatly increased percentages and in much shorter time.

A two ounce jar will treat up to 3,000 cuttings; one pound will treat up to 30,000 cuttings.

Azalea

2 WEEKS QUICKER ROOTING

On our check plots of Azalea Hinodegiri this summer we could pot the rooted cuttings a little over 2 weeks earlier where we used ROOTONE than where we did not. This meant a lot as it helped us to get two crops of rooted cuttings in one season.

CHERRY HILL NURSERIES, West Newbury, Massachusetts, says: "We have your letter of November 30th in regard to our experience with Rootone. We have used this on a variety of material and have found that in most cases it produces better root growth than the check material which was put in at the same time untreated. The powder is much easier to use than liquid form. We have found it very satisfactory for use on Daphne cneorum and all that class of plants which might give a fair stand but which gives a larger percentage of cuttings striking when Rootone is used."

No solution or soaking treatment is necessary. Just dip the base of the cutting in the dry powder and set in the propagating bed or cold frame.

Just Dust and

No Waiting

Rootone

The Plant

ROOTONE is for all plants, supplying the missing element when the plant is slow to start. Nature provides the rest.

ROOTONE treatment improves the rooting of cuttings, germination of seeds, and resulting in earlier and more abundant crops.

2 oz. Jar \$1.00

A two ounce jar will treat up to 3,000 cuttings; one pound will treat up to 30,000 cuttings.

TRANSPLANT

The Vitamin Hormone

When seedlings are transplanted they are aged to some extent. A temporarily checked growth of Vitamin B-1 hormone is established in root plants physiologically.

These chemical hormones are common to all plants. ROOTONE to enable them to establish themselves.

Thus a treatment with ROOTONE will stimulate the formation of the Vitamin B-1 hormone, the risk of interplanting.

3 Oz. Can \$1.00

WHAT ABOUT

Vitamin B-1 hormone. Plants grow better when they are fed to them. If you have enough B-1, TRANSPLANTING is effective because of the potent stimulating effect of the Vitamin B-1 hormone in general.

plants that have
TRANSPLANTONE is ef-
fective. It contains other import-
ant vitamins and chemicals.
It is a balanced vita-
min supplement for plants in

For SEEDS And BULBS

Seeds of all kinds will germinate
faster and in higher percentage if
dusted with ROOTONE before
planting. Pansies, primula, del-
phinium and petunias respond es-
pecially to ROOTONE. Bulbs, par-
ticularly gladiolus and lilies, break
dormancy much more uniformly,
and develop more roots with
ROOTONE pre-treatment. The re-
sulting plants grow faster and
flower earlier.

Chrysanthemum

We recommend ROOTONE be-
cause we have found it of much
help to us in rooting cuttings both
in saving of time and in increased
roots to the cutting. We use it on
all the cuttings we put in except
the ones for checking for compari-
son of results. We know it pays us
both in better roots and time saved
in cutting beds.

GERBING'S AZALEA GARDENS, Fer-
nandina, Florida, says: "Replying to your
favor of the 30th, certainly you may use
my letter or any part of it for Rootone ad-
vertising. Since writing you last year what
I thought of Rootone I have had another
year to try it out, I would not want to be
without it again. It has made sure my pro-
pagation of Camellias which before using
Rootone was always a gamble. This year I
have rooted more than 30,000 Camellias
with less than \$10.00 worth of Rootone.
That is certainly economical enough.
Thanks for putting out such a fine trouble
free product."

Special Strength

For those who want a stronger
powder for use on woody cuttings,
we have "ROOTONE No. 10."
This is priced at \$10.00 per pound
and is made to order. It produces
more roots on such cuttings as
hemlock, spruce and azalea mollis.

A booklet telling more about
ROOTONE and TRANSPLAN-
TONE and how to use them sent on
request.

ROOTONE

PATENT PENDING

The Plant Hormone Powder

ROOTONE is a general stimulant for plants, supplying extra hormone at times when the plant is able to use more than Nature provides.

ROOTONE treatment hastens and improves the rooting of cuttings; increases germination from seeds and bulbs, resulting in earlier flowering.

2 oz. Jar \$1.00 • 1 lb. Can \$5.00

A two ounce jar will treat up to 3,000 cuttings; one pound will treat up to 30,000 cuttings.

TRANSPLANTONE

The Vitamin Hormone Stimulant For Plants

When seedlings, plants, shrubs or trees are transplanted, roots are usually damaged to some extent and growth is temporarily checked. The beneficial effect of Vitamin B-1 and other parts of the Vitamin B complex on roots have been established in research work by leading plants physiologists.

These chemicals and root forming hormones are combined in TRANSPLANTONE to enable transplants to reestablish themselves more readily.

Thus a treatment of TRANSPLANTONE will stimulate old roots, hasten the formation of new ones and reduce the risk of interrupted growth or loss of plants.

3 Oz. Can \$1.00; 1 Lb. Can \$4.00

WHAT ABOUT VITAMIN B-1?

Vitamin B-1 is necessary for root growth. Plants that lack this vitamin grow better when TRANSPLANTONE is fed to them. For plants that have enough B-1, TRANSPLANTONE is effective because it contains other important stimulating vitamins and chemicals. TRANSPLANTONE is a balanced vitamin hormone stimulant for plants in general.

For SEEDS And BULBS

New Waterlily Magnolia

STELLATA WATERLILY. This is the new Magnolia. It is now to be called "Water Lily" Magnolia, on account of its resemblance to a waterlily and its sweet fragrance.

We sent out a good many of these plants last spring and those who have seen it in bloom are very enthusiastic about it. We believe if you are interested in Magnolias you should try one or more plants so as to see for yourself just how wonderful it is.

TYPE OF GROWTH: This plant grows in a pyramidal shape, more bushy and twiggy than the M. Stellata. It is a faster growing plant than the M. Stellata, but not as rapid as the Soulangeana, the branches being much more slender. It bears flowers in great profusion.

TIME OF BLOOMING: Approximately two to four weeks later than the Stellata.

DESCRIPTION OF FLOWERS: Flowers are well placed on ends of branchlets, measuring from 4½ to 6 inches across. The flowers consist of three to five layers, running from twenty to thirty-two petals, which have more character than the Stellata and stand in a more upright position.

COLOR OF FLOWERS: Blush pink, buds flesh pink, fading to white. This magnolia is slightly darker than the M. Stellata Rosea, but does not have the purplish tint of the Stellata Rosea.

TROWBRIDGE GRAFTING WAX

Probably the best known Grafting Wax on the market. It formulated about 86 years ago and consists of high grade Gum Resin, Beeswax and Tallow. Extreme care is exercised in blending these ingredients in order that Trowbridge Grafting Wax may be possessed of the most even consistency and elasticity of any.

Trowbridge Grafting Wax is preferred by most nurserymen and orchardists since it may be used either by the warmth of the hands or melting in a suitable melting pot. When used by the hands, one should grease their hands well when using it. When used by melting, the wax is applied with a small brush.

It is used for grafting, budding, top working, etc., of all kinds of fruit, ornamental trees, shrubs and vines. It is unexcelled for use in painting cuts, bruises and after trimming.

Price 50c per pound, 10 lbs. or more at 40c per pound.

WE WANT TO BUY SEEDS AND PLANTS

We are in the market for Fresh Crop Strictly True-to-name Tree, Shrub and Perennial Seeds and Plants of any new and meritorious items that you may have. Send list with prices.

TOUGH PAPER LABELS

We can furnish a tough paper label slotted in one end one half inch wide and 7¼ inches long at \$1.00 per thousand, \$7.50 for 10,000, \$27.50 for 50,000. Printed to order on one side 1,000 for \$1.75, 10,000 for \$11.50, 50,000 for \$43.50.

Rhododendrons

Most everybody agrees that Rhododendrons are among the most showy of all flowering plants, and most everybody would also like to grow some but the price has always been a great drawback to quantity planting. We believe you will find our prices low enough so that you can resell them at a fair price and still make a good profit. This collection is among the very best of the hardy hybrid varieties; all good growing and good flowering kinds. Push them a little and see how your sales increase.

Send us a trial order for Rhododendrons. We know you will like what we send you.

	Each	10	100	1000
ALBUM ELEGANS. A rapid growing tall variety recommended for backgrounds. Buds and flowers are bluish fading to white.				
12 to 15 in.	\$1.25	\$11.00		
15 to 18 in.	1.50	13.50		
18 to 24 in.	1.75	16.00		
AMERICA. An excellent deep red of open spreading habit. Hardy and easily forced.				
15 to 18 in.	\$1.50	\$13.50		
AMPHION. A striking large, deep pink flower with pure white center. Good forcing variety.				
12 to 15 in.	\$1.25	\$11.00		
15 to 18 in.	1.50	13.50		
CATAWBIENSE ALBUM. A pure white of good compact habit. Produces an abundance of buds.				
12 to 15 in.	\$1.25	\$11.00		
15 to 18 in.	1.50	13.50		
CATAWBIENSE GRANDIFLORUM. A rosy-lilac hybrid recommended for mass planting as it buds heavily, is hardy and is particularly resistant to disease.				
12 to 15 in.	\$1.25	\$11.00		
15 to 18 in.	1.50	13.50		
IGNATIUS SARGENT. A rapid, vigorous growing light red.				
12 to 15 in.	\$1.25	\$11.00		
LEE'S DARK PURPLE. An extremely hardy dark purple having a large number of buds. This variety naturally produces compact globular specimens which force easily.				
15 to 18 in.	\$1.50	\$13.50		
MRS. C. S. SARGENT. A hardy, deep rose-pink of compact habit. Splendid for mass planting.				
12 to 15 in.	\$1.25	\$11.00		
PRESIDENT LINCOLN. An easily forced tall growing lavender. A popular variety.				
15 to 18 in.	\$1.50	\$13.50		
ROSEUM ELEGANS. In habit, this is the best of all hybrids as every plant is a natural heavily budded, compact globe. Its lavender-pink flowers are easily forced, and it is one of the hardier ones.				
12 to 15 in.	\$1.25	\$11.00		
15 to 18 in.	1.50	13.50		

RHODODENDRON SPECIES

MAXIMUM (Rosebay Rhododendron). The white or pink flowers and late blooming habit make this species invaluable.

Taxus--Yew

It is only in the past few years that nurserymen in the United States have begun to really appreciate and grow the Yew. In England there are Yews more than a hundred years old, but unfortunately the English Yew (*Taxus Baccata*) is not reliably hardy in the north and many do not realize that the Japanese and many forms of *Media* are perfectly hardy in and around Boston, and the Japanese even in northern New England.

They are not so particular as to character of soil excepting it should not be too wet, but they do appreciate a plenty of good plant food. They are immune to many plant diseases and insects so destructive to many other evergreens.

The Yew in its many species and forms can well be used in most all places where any other evergreen will do well.

We honestly believe you will do well to plant and grow on some of these Yews.

	Each	10	100	1000
TAXUS BACCATA (English Yew). Widely planted in English churchyards. A good ornament. Hardy as far north as New York City. Upright, dark green foliage. Very good for the South and where it is hardy.				
* 4 to 6 in. trans.		\$0.85	\$6.50	\$60.00
* 6 to 8 in. trans.		1.00	8.00	
TAXUS BACCATA AUREA (Golden English Yew). Leaves golden-yellow, more brightly colored at the tips and margin. Hardier than the type.				
* 4 to 6 in. trans.		\$0.85	\$6.50	\$60.00
* 6 to 8 in. trans.		1.00	8.00	
* 8 to 10 in. trans.		1.50	12.50	
12 to 15 in. B&B	\$0.65	5.50	50.00	
15 to 18 in. B&B	.85	7.50	65.00	
18 to 24 in. B&B	1.15	10.00	90.00	
TAXUS BACCATA COMPACTA . A dwarf tree-like shrub with upright branches and dark green foliage. Grows 4 to 5 feet tall. Foliage shorter and more compact.				
* 4 to 6 in. trans.		\$0.85	\$6.50	\$60.00
* 6 to 8 in. trans.		1.00	8.00	75.00
* 8 to 10 in. trans.		1.50	12.50	
10 to 12 in. B&B	\$0.50	4.00	35.00	
TAXUS BACCATA DOVASTONI . Branches are wide-spreading, nodding at the tips; leaves dull green when mature but light green when young.				
* 6 to 8 in. trans.		\$1.50	\$12.50	
TAXUS BACCATA ELEGANTISSIMA . A vigorous form of dense and compact habit, occasionally more open, with the young leaves striped pale yellow, the older ones with whitish margin.				
* 4 to 6 in. trans.		\$1.00	\$8.00	
* 6 to 8 in. trans.		1.25	10.00	
TAXUS BACCATA HIBERNICA . A strictly fastigiata form, with stout crowded upright branches and branchlets; leaves radially arranged around the branches, dark glossy green, more obtuse than in the type. One of the most desirable evergreens of columnar habit for formal gardens. Do not recommend planting north of Philadelphia, although it is hardy on Long Island.				
* 4 to 6 in. trans.			\$10.00	
12 to 15 in. B&B	\$1.25	\$11.25		
15 to 18 in. B&B	1.75	15.00		
18 to 24 in. B&B	2.25	12.00		
24 to 30 in. B&B	3.50	13.00		
30 to 36 in. B&B	4.50	14.00		
TAXUS BACCATA REPANDENS (Spreading English Yew). A low form with long wide-spreading branches and dull bluish-green, narrower and longer leaves, partly falcately curved upward. Hardy in New England.				
* 4 to 6 in. trans.		\$1.00	\$7.50	\$65.00
* 6 to 8 in. trans.		1.25	10.00	90.00

	Each	10	100	1000
TAXUS BACCATA WASHINGTONI (Washington Yew). A form of wide-spreading habit with leaves golden-yellow, particularly on the under side.				
* 6 to 8 in. trans.		\$1.25	\$10.00	
* 8 to 10 in. trans.		1.50	12.50	
12 to 15 in. B&B	\$0.75	6.50		
15 to 18 in. B&B	1.00	8.50		
TAXUS CANADENSIS (Canadian Yew). Low shrub usually diffuse and straggling but occasionally ascending and up to 6 feet tall. The hardiest of the Yews, but less handsome than the other species, one of the chief drawbacks being the reddish tinge the foliage assumes in winter.				
* 4 to 6 in. trans.		\$1.25	\$10.00	
* 6 to 8 in. trans.		1.50	12.50	
TAXUS CANADENSIS STRICTA (Dwarf Hedge Yew). The most satisfactory evergreen for dwarf edging hedges in severe New England climate. The best substitute for Dwarf Boxwood. Hardy, really dwarf, fine texture, dark, easily grown, shears perfectly, thoroughly tested for past fifteen years. Also excellent for use in general plantings of dwarf evergreens.				
* 3 to 4 in. trans.		\$1.00	\$8.00	\$75.00
TAXUS CUSPIDATA (Japanese Yew). For any and every purpose in which evergreens are required the Japanese Yew can be recommended. Perfectly hardy in New England and Ontario, immune from most diseases and pests. Accommodating to an extraordinary degree, withstanding shade or full sunshine, dark green at all seasons of the year. Small wonder this plant has been acclaimed "Japan's greatest gift to the gardens of America." Under this heading we are offering the spreading or wide growing type which grows as broad or broader than tall.				
* 4 to 6 in. trans.		\$0.85	\$6.50	\$60.00
* 6 to 8 in. trans.		1.10	8.50	75.00
* 8 to 10 in. trans.		1.25	11.00	100.00
* 10 to 12 in. trans.		1.50	12.50	115.00
12 to 15 in. B&B	\$0.60	5.00	40.00	
15 to 18 in. B&B85	7.50	65.00	
18 to 24 in. B&B	1.25	11.00	100.00	
TAXUS CUSPIDATA (Grown from seed). These are mostly upright growers having a single leader, otherwise same description as above.				
* 1 yr. S.			\$2.50	\$20.00
* 2 yr. S.			3.50	30.00
* 4 to 6 in. trans.		\$0.85	6.50	60.00
* 6 to 8 in. trans.		1.25	10.00	90.00
12 to 15 in. B&B	\$0.60	5.00	40.00	
15 to 18 in. B&B85	7.50	65.00	
18 to 24 in. B&B	1.25	11.00	100.00	
TAXUS CUSPIDATA CAPITATA (Upright or Tree-Form Japanese Yew). This is a selected tree-form of Japanese Yew, otherwise same description as for Taxus Cuspidata.				
* 4 to 6 in. trans.		\$0.85	\$6.50	\$60.00
* 6 to 8 in. trans.		1.10	8.50	75.00
18 to 24 in. B&B	\$1.25	11.00	100.00	
24 to 30 in. B&B	1.75	16.50	150.00	
30 to 36 in. B&B	2.00	18.50	175.00	
3 to 4 ft. E&B	2.50	22.50	200.00	
TAXUS CUSPIDATA Densa (Compact Dwarf Japanese Yew). Low form making a dense, sometimes hemispherical bush with ascending branchlets. One of the most handsome of all dwarf evergreens.				
* 4 to 6 in. trans.		\$1.75	\$15.00	
TAXUS CUSPIDATA JEFFREY'S PYRAMIDAL . A pyramidal growing type with dark foliage. Well worth growing for a tall narrow form.				
* 4 to 6 in. trans.		\$1.00	\$7.50	\$65.00
TAXUS CUSPIDATA NANA (Dwarf Japanese Yew). A shrubby form with spreading branches closely clothed with short branchlets; leaves somewhat shorter and duller than the type; slow growing, rather compact. Often offered as Taxus Brevifolia.				
* 4 to 6 in. trans.		\$1.25	\$10.00	\$90.00
* 6 to 8 in. trans.		1.50	12.50	110.00
* 8 to 10 in. trans.		1.75	15.00	
TAXUS CUSPIDATA NANA ERECTA . Same type foliage as above but grows more erect.				
* 4 to 6 in. trans.		\$1.25	\$10.00	
* 6 to 8 in. trans.		1.50	12.50	
* 8 to 10 in. trans.		1.75	15.00	
TAXUS CUSPIDATA NANA FEMINA . A heavy berry-bearing type of the dwarf Yew with good foliage and good growing habit. Your customers will want this when they see it in fruit.				
* 4 to 6 in. trans.		\$1.25	\$10.00	\$90.00
* 6 to 8 in. trans.		1.50	12.50	115.00
* 8 to 10 in. trans.		1.65	13.50	
* 10 to 12 in. trans.		1.75	15.00	

	Each	10	100	1000
TAXUS CUSPIDATA NANA GRANDIFLORA. Practically identical with <i>Taxus Cuspidata Nana</i> , but grows much larger and two or three times faster. Particularly fine.				
* 4 to 6 in. trans.		\$1.25	\$10.00	
TAXUS CUSPIDATA OVATA. Broad, upright in habit, large dark leaf and is unusually attractive throughout the year, especially in fall. Very heavy producer of red fruit.				
* 4 to 6 in. trans.		\$1.75	\$15.00	
* 6 to 8 in. trans.		2.00	17.50	
TAXUS INTERMEDIA.				
* 8 to 10 in. XX trans.		\$1.75	\$15.00	
TAXUS MEDIA ANDERSONI. A wide vase-shaped form of <i>Media</i> . Excellent for specimen plants and hedges.				
* 4 to 6 in. trans.		\$1.10	\$8.50	\$75.00
* 6 to 8 in. trans.		1.25	10.00	90.00
* 8 to 10 in. trans.		1.50	12.50	
12 to 15 in. B&B	\$1.00	8.50	75.00	
15 to 18 in. B&B	1.25	11.00	100.00	
18 to 24 in. B&B	1.50	13.50	125.00	
TAXUS MEDIA BROWNI. A form of <i>Media</i> of very dense habit and conical in outline; dark green foliage.				
* 4 to 6 in. trans.		\$1.50	\$12.50	\$110.00
TAXUS MEDIA HATFIELD. Another <i>Media</i> hybrid. A compact bush of conical shape with upright branches and radially spreading leaves. This form may take the place of the Irish Yew where the latter is not hardy.				
* 4 to 6 in. trans.		\$1.25	\$10.00	\$90.00
* 6 to 8 in. trans.		1.50	12.50	
15 to 18 in. B&B	\$1.25	11.00	100.00	
18 to 24 in. B&B	1.50	13.50		
TAXUS MEDIA HICKSI (Hick's Yew). A distinctly columnar form with upright branches and radially spread leaves. Another good substitute for the Irish Yew where that variety is not hardy. The demand is strong for this variety—seeing is wanting. Hardy at Boston.				
* 4 to 6 in. trans.		\$1.00	\$7.50	\$65.00
* 6 to 8 in. trans.		1.25	10.00	80.00
* 8 to 10 in. trans.		1.50	12.50	115.00
* 10 to 12 in. trans.		1.75	15.00	140.00
* 12 to 15 in. trans.		2.50	20.00	180.00
15 to 18 in. B&B	\$0.85	7.50	60.00	
18 to 24 in. B&B	1.10	10.00	90.00	
24 to 30 in. B&B	1.50	13.00		
30 to 36 in. B&B	2.00	18.00		
TAXUS MEDIA HUNNEWELLIANA. A natural cross between the Japanese and Canadian Yews. An intermediate between the parents in habit of growth, in color of foliage and in general appearance. It is perfectly hardy and of elegant form but in the winter the clear green of its foliage is masked by a yellowish-bronze pigment.				
* 4 to 6 in. trans.		\$1.25	\$10.00	\$90.00
* 6 to 8 in. trans.		1.50	12.50	
* 8 to 10 in. trans.		1.75	15.00	
12 to 15 in. B&B	\$1.00	8.50		
18 to 24 in. B&B	1.50	13.50		
TAXUS MEDIA KELSEYI. The first of the new Yews to be propagated from the point of view of its showy red fruit. Fairly slow grower. Dark green, dense needles of the <i>brevifolia</i> type. Upright bush. Begins bearing berries even on small plants. Larger sizes literally infested with the bright red fruits. A real worth-while new plant.				
* 4 to 6 in. trans.		\$1.50	\$12.50	\$110.00
* 6 to 8 in. trans.		2.00	17.50	
TAXUS MEDIA VERMEULEN. Very compact and dense upright grower. Broad base and narrow top. Beautiful pyramid heavily interspersed with red berries.				
* 4 to 6 in. trans.		\$1.25	\$10.00	\$90.00
TAXUS MEDIA WELLESLEYANA. Another form of <i>Media</i> making a dense, broad column; foliage a fine dark lustrous color. Should prove valuable.				
* 4 to 6 in. trans.		\$1.25	\$10.00	\$90.00
* 6 to 8 in. trans.		1.75	15.00	
12 to 15 in. B&B	\$1.00	8.50		

MORE HATFIELD YEWES

The following varieties were grown from stock purchased from the late T. D. Hatfield. He selected these as being the best of his unnamed varieties and we are still carrying them under his original numbers. No. 18 is one of the most rapid growers of the lot and we believe it will make one of the best for hedges. All of them are good.

The three following varieties belong to the Yew family				
CEPHALOTAXUS DRUPACEA (Japanese Plum-Yew). Shrub or small bushy tree rarely to 30 feet tall with wide spreading branches, usually light green; leaves about 1 inch long abruptly pointed, narrow and straight, often upturned; purple fruit about 1 inch long. Hardy in sheltered places as far north as Massachusetts.				
* 4 to 6 in. trans.		\$1.00	\$7.50	
* 6 to 8 in. trans.		1.25	10.00	
* 8 to 10 in. trans.		1.50	12.50	
*10 to 12 in. trans.		1.75	15.00	
*12 to 15 in. trans.		2.00	17.50	
CEPHALOTAXUS PEDUNCULATA FASTIGIATA (Harrington Plum-Yew). This plant grows almost exactly like a fine type of the Irish Yew, forming a tall, narrow, compact, dark green column with thick, narrow leaves 2 inches long. Hardy as far north as New York. Very nice.				
* 4 to 6 in. trans.		\$1.50	\$12.50	\$110.00
* 6 to 8 in. trans.		1.75	15.00

Quantities: 1 to 5 at the each rate, 5 or more at the 10 rate, 25 or more at the 100 rate, 250 or more at the 1000 rate.

Hardy Perennials

One to four plants of a variety at each rate; five at ten rate; 25 at 100 rate. Please add 20% if your order calls for less than five plants of a variety. No charge for packing.

Most of the stock offered is field grown and one or two years old, except, of course, where noted.

Height specified in description is the ultimate height.

Hardy Amaryllis—Magic Lily

We have, at last, a good stock of bulbs of this most interesting plant. Great big husky fellows. At 10 for \$4.00; 100 for \$35.00.

This bulb, also known as *Lycoris Squamigera*, is a native of Japan and one of the most interesting members of the Amaryllis family. It produces attractive green foliage in the spring which disappears in midsummer. About a month later, as if by magic, the flower stock appears, bearing a cluster of 7 to 12 fragrant lily-shaped flowers of delicate lilac-pink, shaded blue. Perfectly hardy in the northern states and may be left in the ground year after year unmolested.

We unhesitatingly recommend "Rootone" as an aid in rooting. We treat every cutting we make with it. This is the greatest recommendation we can give anything.

Paper Labels for Typewriter Use

We can furnish a tough paper label, slotted in one end, one half inch wide, 7 inches long, twelve labels to a sheet, cut so they will easily tear apart. Convenient, easy to use and low in price. Price, 1000 for \$1.00, 10,000 for \$7.50, 50,000 for \$27.50. Samples on request.

Asparagus

We are only growing the **MARY WASHINGTON** variety of Asparagus as it seems this is the one nearly every one wants to plant now. It is generally considered the best for growing, shipping and eating. We have some nice crowns this season and will appreciate your order.

Make More Profit

Sell your Roses, Perennials, Shrubs, Vines and Fruit Trees Started and growing in

Cloverset Plant Pots

THEY ARE CHEAP IN PRICE. They are so cheap that they can be given away with the plant which insures the safe arrival, in first-class condition, of the plant grown in them, to its final destination.

THEY MAKE THE NURSERY BUSINESS AN ALL SUMMER BUSINESS. They permit the nurseryman to extend his selling season from early Spring through the Summer and Fall, and to plant Roses and other nursery stock grown in them even in the hottest Summer weather without the least sign of wilt of either the foliage or the blooms.

YOU CAN SELL YOUR PLANTS IN BLOOM. By growing your stock in our pots you may sell it in full foliage and in **Full Bloom**, when it will command the best price and more profit.

DESCRIPTION OF STRAWBERRIES

AROMA. This is one of the old reliable midseason to late varieties and extensively planted in many sections.

BIG JOE. One of the midseason varieties that is very good where conditions suit and not worth much if they don't.

BLAKEMORE. This is hard to beat as an early berry in many sections. Always sells well and generally produces good crops. Very good the past season. Easy to grow.

CATSKILL. An introduction of the New York Experiment Station. Highly recommended. The largest and most productive of all midseason varieties. Considered the best midseason variety. You will be safe in pushing Catskill especially for northern growers.

CHESAPEAKE. This is the finest dessert berry of the late varieties and will keep better and sell at higher prices than any other late berry we know of. The fruit is large and handsome and will stay so until the end of the fruiting season. Berries are a rich glossy red with bright yellow seed, have a large green cap and are very uniform size. Chesapeake is firm and will carry to the markets in the best of condition.

DORSETT. An introduction of the U. S. Department of Agriculture. Early, of most excellent flavor. Generally good except in few sections does not do so well.

FAIRFAX. Another U. S. Department of Agriculture introduction. A better later and of equally as good flavor as Dorsett. One of the best early-midseason varieties.

FROSTPROOF. A western variety of many good qualities among which is its great resistance to frost.

GANDY. For fifty years has been considered one of the very best real late varieties.

LUPTON. One would not likely grow this variety if he was going to eat the fruit himself as it does not begin to have the quality of some of the others but it is very attractive and shows up so well when it arrives on the market that it almost always brings the top prices and this is what the commercial grower is interested in. Good grower, late, attractive and sells well.

PATHFINDER. A new variety originating at the New Jersey Agricultural Station. This berry has attracted much favorable attention among growers and others who have seen it in fruit. Especially recommended where Premier does well and is a few days later in fruiting. We suggest you push it.

PREMIER. For a good many years this has been the best plant seller of them all, hence, has been a profitable one for the berry grower. Early, almost frost resistant, always producing good crops, attractive, good grower, productive, medium to large berries, and not too wet at picking time a good shipper but if there is a lack of sunshine the berries do not keep well. In some sections they will not plant anything else for a crop of early berries.

SENATOR DUNLAP. For many years this has been very heavily planted in the middle west and continues to be in heavy demand. Early midseason. Good grower.

FALL BEARERS. These berries are now so generally known that it is hardly necessary to say much about them. **Mastodon** and **Gem** are considered the best of all the Fall Bearers and are by far the best sellers. Both are large and fairly productive.

Blueberries

These blueberry plants are a source of superlatively fine fruit, but also are ornamental shrubs of rare beauty. They may well be used in association with their close relatives, laurel and rhododendron. In pleasant contrast to the rich, evergreen masses of the latter, blueberries give lightness, grace and color.

In spring, the dainty new leaves of blueberries with their pinky, bronze tone are very lovely. Even more charming are the carmine-tipped buds and myriads of waxy, white flower bells. The berries, at first green flushed with pink on the sunny side then ripening to a lovely soft blue, are exceedingly beautiful till past midsummer. To no foliage does autumn bring a more glorious and lasting crimson. When the gorgeous leaves drop there remain all winter bright red twigs, knobby with the fat buds enfolding the promise of next spring's flowers.

Prices of Blueberry Plants Each	10	100	1000	
6 to 12 in. 2 yr.	\$0.30	\$2.25	\$17.50	\$165.00
12 to 15 in. 3 yr.40	3.00	22.50	200.00
15 to 18 in. 3 yr.45	3.50	27.50	250.00
18 to 24 in. 4 yr.55	5.00	40.00	375.00

There has developed an enormous demand for these plants, both for fruit and ornamental purposes. If you have not been getting some of this trade you are missing some good profits. They are easy to grow and handle. Put in a small stock and let us supply you; will send to you or direct to your customers under your tag.

Description of Varieties

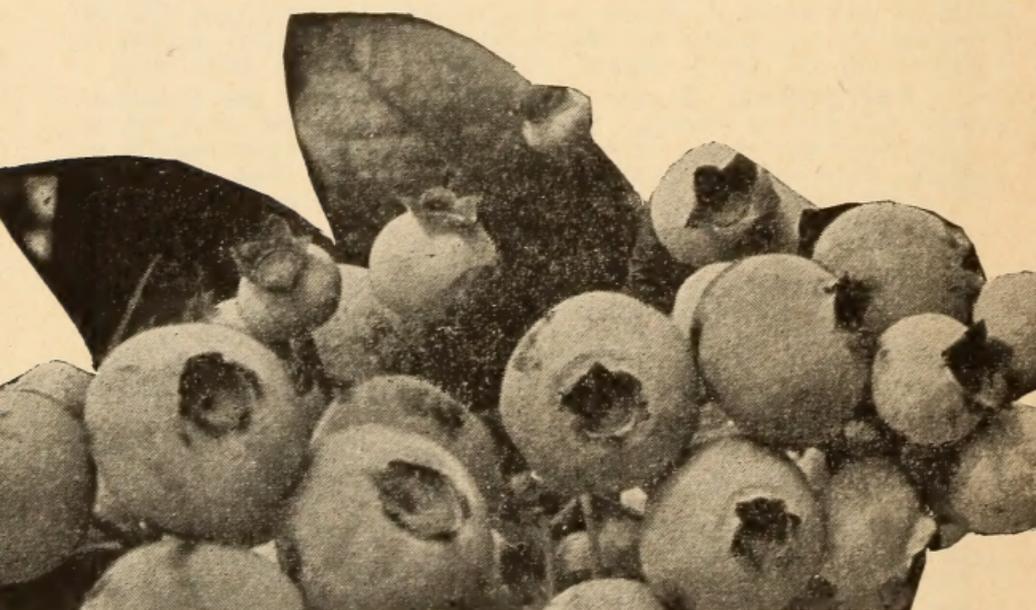

RUBEL. A vigorous, productive variety. Well developed bushes stand six feet high and the winter color of the young wood is a rich red. The large berries of fine color are usually ready to pick the first week in July.

CABOT. The earliest variety. Plants seldom exceed three feet in height and make a broad low bush. The color of the new growth in winter is a light red over olive. The large berries have a delicious sub-acid flavor.

RANCOCAS. The bush of slender, vigorous, upright habit rarely surpasses five feet in height. The winter twigs are a dark red. The berries are somewhat larger than those of Rubel and begin to ripen several days earlier.

CONCORD. The bush is of upright habit and at maturity exceeds six feet in height. The young growth is bright red in winter. The berries are large, frequently reaching three-quarters of an inch in diameter. They usually ripen a few days earlier than Rubel and are fine in flavor and appearance.

JERSEY. The bush is of vigorous habit and grows very large. The winter color of the young growth is a light red over golden brown. The berries are the largest of any here listed, light blue and ripen about the same time as Rubel.

Native Peat or Wood's Mold

To grow Azaleas and Rhododendrons successfully you must have leaf mold, peat in some form or some similar substance. We have used Russian, German and Holland Peat, leaf mold collected from under trees in our local forests, but by far the best material we have ever used is a form of native peat, a deposit of which we have found near here. It runs from twelve to twenty four inches thick and is composed of thoroughly decayed leaves and other material from hardwood trees which has been generations in the making. We fully recommend this for use in growing stock and to use in a mixture of soil and sand in which to sow seeds but we do not recommend it for use in propagating evergreens and other soft wooded shrubs by cuttings.

If you would like to try it we will send you a two-bushel bag for \$1.00. Will quote special prices on larger lots. Try a sample bag, we believe you will like it so well you will want more.

Shipping Tags

Made from good quality, tough, waterproof stock. Size $3\frac{1}{8} \times 6\frac{1}{4}$ inches. The standard size tag most used by nurseries. There is room for your Inspection Certificate on the address side. Printed to your order at the following prices:

500	1,000	2,000	5,000	10,000
\$3.50	\$5.50	\$10.50	\$24.50	\$45.00

We can also furnish any other size or quality tag at very reasonable prices. Ask for quotations.

Elastic Rubber Bands

Every nursery and florist need Rubber Bands. They save much time around the greenhouse, packing house, shop and office. You will find so many uses for them you will hardly know how to get along without them after you have used them a while. Order a box each of several sizes and see how quickly they pay for themselves in time-saving alone.

Made of factory-fresh, gray colored rubber.
